

Hello and welcome to the instructions!  
Instructions apply to both sets.

For these instructions, you will need: scissors or a razor (be careful), some table space and a paper disposal container.

1. First, cut out the character(s) along the provided outlines. (Make sure not to cut through the character(s)!
2. Remember to cut through the vertical line(s) at the bottom of each character.
3. Cut out the stand(s) required for the character. (It is recommended to leave a little on the top as small applied pressure does the trick in the next step).
4. Then insert the stand at the bottom of the character's outlines using the vertical outlines. (Do not worry if you make a few mistakes or lose some of the stands; the sets come with extras, especially if you have purchased set #2).
5. Throw away or recycle the excess paper.
6. And finally... have fun! Display or play to your heart's content.

If you have any questions or concerns, please email: [zedcomic1@gmail.com](mailto:zedcomic1@gmail.com)

Thank you all very much for your purchases!
